

Her name is MaryAnn
and she deserves better.

To stop a deadly melanoma from spreading, MaryAnn's doctors cut out the cancer from her face and her neck. It was her only option and now she is scarred for life. At the Melanoma Research Foundation, we believe we can do more to help MaryAnn and the growing number of people with this deadly disease. By funding innovative research, we can find a cure. **You can help.**

Please go to www.melanoma.org and donate now.

TEXT TO GIVE:

MARYANN 10 to 27138, pledging \$10

MARYANN 25 to 27138, pledging \$25
